21 June 1971

MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Report of School of Intelligence and  
World Affairs No. 24, 11 - 17 June 1971COURSE ACTIVITIES1. Senior Officers Schools Program

All proposed speakers for the annual three-day orientation for Agency officers going to the senior departmental schools as well as universities, agreed to participate during the 28-30 June 1971 program. With the Acting Director unable to attend, the Executive Director-Comptroller has accepted the invitation to meet with the class at the conclusion of the program. Between 20 and 30 of the nominees, who will be attending these departmental schools and universities, are expected to be present. The program will cover important substantive areas -- the Agency's role in Vietnam, Soviet military strength, developments in Communist China and the Middle East, and CIA's relationships with the Congress. The class will also hear and meet with Agency alumni from the various senior schools. On the concluding day the students will have the opportunity to question each of the four Deputies, as well as Colonel White.

2. Advanced Intelligence Seminar (AIS)

As a result of the DTR's approval, there will be two runnings of the Advanced Intelligence Seminar (AIS) in the fall. To help the cohesiveness of the class and to meet the space limitations more satisfactorily, it is planned to limit each enrollment to 25 students.

25X1A6b

The September course will open on 8 September 1971 and conclude on 24 September. The initial 2 1/2 days will be held [redacted], the second week at Headquarters (1A-07), and the final week will start [redacted] and have the last two days at Headquarters.

The second fall running will open on 10 November 1971 -- one week later than previously scheduled -- and end on 30 November.

The apparent lengthening of the course is due to the fact that Thanksgiving Day will occur during these dates. Accordingly, the conclusion of the course will take place at Headquarters on 29 and 30 November.

Tom was impressed with the high quality of the student body, which included OTR's [ ] and he is sure that his reaction was common among the visitors. The guest lecturers measured up to their high offices: everyone was clearly delighted with Mr. Helms' genial, forthright Q and A performance; and Tom wonders if OTR has ever tried to get Admiral Moorer, JCS Chairman, on any of our programs. The visiting firemen -- on Tom's committee they included a former high DOD official, a Wisconsin farmer and regent of the University, a Georgia editor, a N.Y. beverage packaging executive, a California engineer -- were certainly an education in themselves.

He also found time to explore, in the interest of his own historical research, the rich Military History Collection which is well and appropriately housed at historic Carlisle. The stacks, to which he wants to return, feature row upon row of attache reports from the beginning of G-2 down to World War II; there is a useful set of War College lectures, given between the two World Wars, on the structure and problems of G-2; also there is a good collection of military journals with a card index to guide one to helpful items on between-the-wars thought on espionage and intelligence -- the point of departure for a shift to a modern American intelligence system.

## 2. Area and Language Roundtables

25X1A9a

As a follow-up on the recent joint meeting of the Area and Language Training Roundtables, an interim committee will meet during the summer to explore possibilities for closer collaboration among area, language, and cross-cultural trainers. This committee consists of the Defense Language Institute's Dr. Joseph Hutchinson, an FSI representative not yet announced, and [ ]. All three persons have had experience in both area and language training and believe that their collaboration will work to the mutual advantage of all three categories of trainers.

A permanent standing committee of the two roundtables is expected to take over from this committee in the early fall, when regular meetings resume. At the 10 June meeting of the Area Roundtable, Marc turned over the Chairmanship to Dr. Robert Suggs, Acting Chief of Language and Area Centers and Research Branch, Institute of International Studies, Office of Education.
